### CALIFORNIA

California is alive with activity in parapsychology, metaphysics and other significant areas of human growth potential. Uni-Com Foundation directly supports this activity by serving as its information hub.

The major service which the Foundation now provides is UNI-COM GUIDE, a monthly calendar of spiritual and personal awareness activities scheduled throughout California. This popular publication allows "new age" organizations to announce in advance the dates and contents of their meetings to a large and interested audience of individuals and other organizations. The cost of publishing UNI-COM GUIDE is supported by paid advertising and by modest subscription fees of \$5 /year, or \$8 / two years.

In the process of gathering information for UNI-COM GUIDE, the Foundation becomes aware of leaders who are available for service in counseling, speaking, teaching, research, seminars and retreats. Frequently this awareness, discreetly coupled to organization needs for such talent, results in effective new relationships. Uni-Com Foundation does not solicit funds for this and other informal services but is supported by those who see the value of such work and voluntarily wish to become a sustaining part of it.

Uni-Com Foundation is a non-profit and non-denominational corporation which lovingly encourages the achievement of a loving society. Uni-Com also offers two additional services of a mail order book catalogue and a small monthly pamphlet of articles by Metaphysical teachers.

# GUEST EDITORIAL

by BETTY BETHARDS

Betty Bethards is a meditation teacher and mystic and head of the non-profit, non-sectarian Inner Light Foundation in Novato, California. She appears every Saturday evening on KSFO radio in San Francisco from 8:00-10:00 p.m.; lectures regularly in the Bay Area and throughout the western United States; and is the author of "The Sacred Sword".

It hardly need be emphasized that war and the threat of war in our world is a major cause of anxiety and frustration.

Why would a supposedly "good" God, or Cosmic Intelligence, permit apparently innocent people to suffer? Why would such a God permit a seemingly hopeless estrangement among nations?

War is a result of discord among men who are not at peace with themselves. Man's lack of love for his fellow man results in the effort to control others, to exploit others, and to take what is possessed by others. War is the expression of greed, the very opposite of love.

War represents man's scattered energies, his illusion of separateness from his fellows. War is the negative side of man's creative energy and power, embodying hostility, hatred, and envy, which are expressions of man's ignorance and misunderstanding.

The outer manifestations of war—manufacturing weapons, destroying vegetation, causing one's fellow human beings great pain and suffering, the actual killing—begin within the individual human being. For war is the expression of the turmoil within individual minds.

Think of the hostile thoughts that pass through your own consciousness during a single day. Hostile vibrations expand into outward reality and we find ourselves saying and doing things hurtful to others. "As a man thinketh, so is he." War, the outer manifestation of our inner violence and hatred, can indeed be prevented—but only by persons regulating their individual thought vibrations. War can never be regulated by legislation. The negativity which causes war will only express itself in other ways—angry words, petty jealousies, personal hostilities. And these things are as destructive as the devastation we are accustomed to calling "war".

This view is consistent with that of both Eastern and Western traditions which point out that conquering one's self is far more significant than conquering a nation. Unless a man conquers himself--his own renegade passions and greed--he has conquered nothing.

Peace, then, is found in the inner realms of being. It represents a state of consciousness attuned to the cosmic consciousness. This is variously called the Inner Light, the Christ Light, or the God Force within. There is a VERY REAL LEVEL OF VIBRATION that is identified with peace, ultimately more real and powerful than the destructive lower vibrations of hostility and hatred.

Man CAN hope to create a peaceful world. Large numbers of people expressing the vibrations of love and peace will bring harmony among men BUT WE HAVE TO START WITH OURSELVES, WHERE THE PROBLEM HAD ITS ORIGIN. We spread it to others, and they to others, until real peace comes. God does not bring about wars; man does. And man can bring about peace, each within self, and ultimately nations.

Without personal peace within the individuals who make up nations, it is not possible for nations to get along with one another. Each of us can learn to feel and to know the peace which resides deep in the soul. If you cannot accomplish this WITHIN self, it will never exist WITHOUT.

Peace is a blending of persons in truth and harmony, one with the other. It is the seeing the God-nature of every man. It is reaching out and extending to every fellow human being the love force you discover at the center of your own nature.

All people are essentially one unit. What is needed is a harmonizing of vibrations, the positive vibrations at the "love end" of the vibratory scale. If each soul were AWARE of the "peace-love" power within, there would be a natural harmony uniting all men in a brotherhood which could stand all threats. There would not be war or suffering, for men would be free from the greed and hatred that makes them exploit one another.

If you could accept the "plan" or "will" of the one God, the Cosmic Intelligence, you would see that it intends each person to find his identity with the God-source and with all his fellow creatures. You would know that as you hurt another, you hurt yourself. And as you give to another you receive in return. This is the law of karma in action. If you would develop the love power, and learn to express it in your daily living, you would find the brotherhood the world is searching for would actually BE.

If you are in earnest about peace within and peace in your world and THE world, start with your thought. Our leaders don't cause wars and discord, each of us do with our thoughts which manifest themselves in our lives. The next time you think negatively or cruelly towards another person, ask yourself: "Do I really want to contribute this vibration towards world discord and war?" For we cause it; it's up to us to correct it.

## BIOFEEDBACK

### DAWNING OF UNIVERSAL

### SELF-AWARENESS

At the recent Kohoutek Celebration of Consciousness happening, the attraction drawing one of the biggest crowds was the Humatech Industries biofeedback display. Instruments monitoring skin conductance, blood circulation and brain-wave rhythms were being demonstrated to an astonishing number of interested professionals and individuals.

Seeking a better understanding of biofeedback and its uses, I talked to Gary R. Plapp, Executive Director of Humatech Industries. (Humatech markets instruments incorporating the latest in electronic technological advances.)

**UNI-COM:** What is biofeedback?

**DR. PLAPP:** The word biofeedback refers to the process whereby an individual is able to monitor his own bodily functions and attempt to practice control over them. In modern biofeedback techniques, electrical impulses received from various parts of the body are amplified and transmitted to the subject through electronic cues such as audible tones, color, or a digital display of the percentage of success.

**UNI-COM:** When did biofeedback research begin?

**DR. PLAPP:** Although biofeedback training has only recently received attention in the U.S. biofeedback research has been conducted abroad for more than 50 years, dating from 1905 in Germany when Johannes Schultz combined the self-regulation aspects of Yoga with techniques of hypno-therapy. Recently, researchers, such as Dr. Joe Kamiya at the Langley Porter Neuropsychological Institute, and Dr. Elmer Green at The Menniger Foundation, have speeded up training in self-regulation through modern electronic techniques of physiological feedback.

**UNI-COM:** What are its applications?

**DR. PLAPP:** Subjects learn to regulate muscle tensions, body temperatures and the rhythms to their brainwaves. In the medical field, experiments have been conducted using biofeedback devices as aids in controlling hypertension, epilepsy, psychomatic illness, etc. But one of the more exciting applications, as we see it, is in the field of expanded consciousness, where research has shown that the Alpha and Theta brainwave techniques are comparable to deep meditative states, and that training with biofeedback devices can speed up and enhance training in meditative techniques. Also, indications are that biofeedback training possibly enhances ESP powers.

We feel that biofeedback has tremendous future potential, not only in research, but also for mankind. We hope these steps toward self-awareness and exploration of individual consciousness will eventually lead to intregation of the self with the large consciousness of Humanity.

## OH, MASTER!

Often, I hear some one speak of a new "Master", a new "Avatar", or am told that all the living masters have finally been located, and wonder if we really know an Avatar when we see one!

Because of the exclusive and combative tendencies of man, a battle of the masters is raging in the human thought. Each group claims its master, its leader its saint is the best; just like children cheering for the home team, or politicians exalting their own nation or their own territory above all others. The universal view, is the cosmic view. It is nothing but ego that exalts one master over another. They all are great in their way, their time, and their place. They all serve a universal purpose. Each master, each teacher, each group has its place, its purpose in the over-all, the "universal plan". The concern over who is best, who should be placed before another is one of ego, usually on the part of the student. Maybe, if we had each teacher place a sign on his back, saying "listen, learn, put into action, but do not *worship*, the students might take a little notice. Hero worship, no!!!! Teachers, yes! Don't put teachers on a pedestal they might fall off! Believe me they are human too. Teachers are placed on this earth plane to guide and direct. They should not interfere with your Karma, or destiny. They can only help to guide it and help to mold it into place. You, yourself, must plan and create your own pattern of destiny. No one else can do it for you. You have been placed here to become master of your own destiny.

A UNIVERSAL PRAYER - from ISIS - Divine Mother of The Light

"My Heart it lighteth all with Royal Splendour!  
Look to the East!  
Arising with the Sun are the Royal Robes of Light,  
Which spread Their radiating rays upon the earth,  
And bless the planet upon which we have our life lessons.

Bless this planet, of God of Love!  
Bless the earth and all the Life  
That takes sweet breath from its atmosphere;  
Bring radiant Light to the dark places of thy planet, earth,  
That all of space around us is filled with Thy Illumination!

You are kissed by Divinity;  
Reverence grows and grows;  
Know that you are One with Eternity,  
There is no time; there is no space!

Listen to the Music of the Spheres,  
The Soundless Voice of the One Creator,  
Who sends His blessings in the form of Light!

And I hear the Voice that cries out  
In the Wilderness;  
The Voice that beckons me to find my place  
In the vast atmosphere of Life,  
And I know that the Great Voice comes from within  
The deepest part of me.  
And I hear the Voice that blesses and brings Peace."

Have you ever looked at your pet and wondered what it was thinking? Sure you have, and so has every one else. To be able to talk to animals is one of the great universal fantasies. Of course, we can talk to animals in a crude fashion. **BEATRICE LYDECKER**, however, can read the thoughts of animals with much more accuracy and sophistication. She can tell that an animal is sad, but also why it is sad, what past event, what physical pain, what acute worry is making it sad - or happy - or whatever. And she can do this with all animals, dogs, cats, horses, birds, mice, even reptiles.

For professional counseling for your pet, call for an appointment. Uni-Com Foundation, 415-493-2973.

Please call between the hours of 11 AM and 4 PM.

are. It's not light reading because it's your life,  
your astral biography, from the details of your  
inner feelings to your outermost ambitions.

Sun-Moon polarity, as the connection between  
conscious drives and unconscious feelings, is  
discussed at great length.

The ascending sign and its rulership position  
interpreted as your personality, as your approach  
to life. Each house of the zodiac is described  
in terms of planets, rulerships and aspects.

This is not a vague report based on generalities.  
From your exact time, day, year and place of  
birth our IBM 370-155 sorts out 24,000,000 bits  
of astrological information. The result is a 12,000

even your closest friends would not dare talk  
about.

How is this possible? An astrologer does basi-  
cally the same thing, but it takes longer and  
costs more. The computer is simply a memory  
bank. Only the information that applies to you  
and only you is drawn from the bank.

All this is yours for only \$10. It's the best buy

# Cosmogenic ART

Patricia Elaine

Wortman

The Art of The Cosmos is a beautiful experience of blending colors and images that touch a deep spiritual awakening within each student. Work is done with the hands, no brush or pallet, using techniques that have been developed over many years. When the hand comes in contact with color a very strange and wonderful feeling is in store for the student. . . . Classes are usually conducted with a background of music. The student has the opportunity of learning self awareness, creativity and spiritual advancement through these techniques!
